

MOHAN VENKATESHKUMAR

Backend Developer | Python Developer | Django Developer | Django REST Framework Developer
Lalgudi, Trichy, Tamil Nadu | +91 6380246563 | mohanvenkateshkumar@gmail.com

PROFESSIONAL SUMMARY

Backend Developer with hands-on experience building scalable REST APIs using Python, Django, and Django REST Framework. Skilled in real-time backend systems with WebSockets and Redis, JWT-based authentication, and role-based access control, with a strong focus on PostgreSQL database design. Experienced with React for frontend integration, including a freelance ERP full-stack project spanning REST APIs and business modules. Focused on writing clean, production-ready backend code.

TECHNICAL SKILLS

Programming: Python, SQL
Backend: Django, Django REST Framework, FastAPI
Database: PostgreSQL
Authentication & Real-Time: JWT, WebSockets
Caching: Redis
Frontend: React
Analytics & Visualization: Power BI, Tableau, Streamlit

PROFESSIONAL EXPERIENCE

Stackly — Backend Developer Dec 2025 – Present

- Developed scalable REST APIs for a job portal platform using Django REST Framework, covering listings and applications.
- Built backend services for e-commerce workflows, including product management and order processing systems.
- Implemented JWT-based authentication and role-based access control to secure API endpoints.
- Integrated WebSockets to support real-time backend functionality across platform features.
- Used Redis for caching and performance optimization, and PostgreSQL for relational data storage.

Sisco Energy Pvt. Limited, Tiruchirappalli — Production Engineer Mar 2024 – Dec 2025

- Managed end-to-end production execution for Siemens Energy AG projects involving Air Intake Systems and Enclosure Systems for Wind Turbine Generators.
- Handled raw-material planning, BOM, cutting plans, fabrication, fit-up, dimensional checking, painting and dispatch.
- Worked with ERP-based production scheduling, job cards, material planning and production coordination.
- Coordinated with production and quality teams to meet technical requirements, dimensional accuracy and delivery schedules.

PROJECTS

ERP Software — Freelance Full-Stack Project — React, Django

- Developed a full-stack ERP application with a React frontend and a Django backend.
- Built REST APIs and business/ERP modules to support core workflow-based screens.

Job Portal Backend — Django REST Framework, JWT

- Built REST APIs for job listings and applications with JWT-based authentication.

E-Commerce SaaS — Django, PostgreSQL

- Developed product management, order processing, and role-based backend systems.

Weather Dashboard — Streamlit, REST API

- Built a real-time weather dashboard consuming external APIs with dynamic Streamlit visualizations.

ERP Monitoring Dashboard — Power BI / Analytics

- Built a real-time ERP and business analytics monitoring dashboard.

EDUCATION

B.E., Mechanical Engineering — K. Ramakrishnan College of Technology 2021 – 2024 | CGPA: 7.8
Diploma, Mechanical Engineering — Seshasayee Institute of Technology 2017 – 2020 | 68%
SSLC — Lions Matriculation School 2017 | 89%

CERTIFICATIONS

- Python – GUVI
- Autodesk Fusion 360 – LIFT India
- MEP Certification
- Internship on PPC
